8. **Special Conditions.** Developer, its successors and assigns, shall comply with the conditions of major development approval which are set forth in this Agreement. It is further understood and agreed that failure to fulfill any provision of this Agreement, the Site Plan, or the conditions of approval, may result in non-issuance of certificates of occupancy, certificate of completion, or other regulatory approvals with respect to the Proposed Development, until such time as all conditions of the specific building permit or this Agreement are complied with, and that the City shall not be liable for any direct, indirect and/or consequential damages claimed for such non-issuance. Developer acknowledges that the following are special conditions which must be adhered to throughout the development of Project.

A. **General Development Conditions.**

1. All roof-mounted mechanical equipment shall be screened from street view. The roof equipment shall be engineered and screened to reduce noise.

2. The Approvals shall be subject to the extension and expiration provisions of the Code of Ordinances, except as follows:

   a. The maximum time to complete the Project shall be 14 years from the date of the Site Plan approval; provided, however, that should the Project not be complete within the standard time to complete a multiphase development which is 7 years from Major Development approval (the "Initial Build-out Date"), Developer shall submit to the City for approval an updated traffic study utilizing the same methodology/parameters utilized in the traffic study for approval of the Site Plan (the "2022 Analysis"). The updated study will account for new traffic counts, updated approved but not constructed developments, revised trip generation calculations and the extension of the build-out date of the remaining unbuilt portion of the Project from 2022 to 2029 (the "Final Build-out Date"). Should the results of that updated traffic study conclude that the project adversely impacts the study area beyond the results of the 2022 Analysis, Developer will mitigate such additional adverse impacts prior to receiving any further certificates of occupancy for any buildings not yet started.

   b. After the issuance of a certificate of occupancy for the first Major Building and completion of the Renovation Phase, Developer shall not be subject to the 18 month period to submit building plans for subsequent phases of development or the 6 month period to obtain a building permit required pursuant to Section 32 of the City Code, so long as the Project is completed by the Initial Build-out Date or the Final Build-out Date as applicable.

3. Prior to the issuance of the first building permit, Developer shall submit a construction staging and management plan ("Construction Plan") for review and approval by the City Manager or his/her designee. The Construction Plan shall include measures to minimize dust and dirt emanating from reconstruction of the existing golf course and establish a
construction and community liaison to assure that communication between the
general contractor for all development at the Project and the surrounding residents
is direct and efficient. The Construction Plan shall provide details regarding the
availability of the community liaison and parameters for his or her response times.

4. Hotel rooms (keys) permitted to be constructed
within Buildings 200, 300 and 400 may be increased or decreased as to each
building and shifted from one building to another so long as the maximum of 938
hotel keys is not exceeded and that a revised site plan reflecting the key shift is
submitted to the City for review and approval as an amendment to the previously
approved Major Development Plan (the "Site Plan Amendment"). In the event
the Site Plan Amendment does not involve an increase in height or reduction in
setbacks, the Site Plan Amendment will be reviewed as a Minor Amendment
pursuant to Section 32 of the City Code; in the event the Site Plan Amendment
involves an increase in height or a reduction in setbacks the Site Plan Amendment
will be reviewed as a Major Amendment pursuant to Section 32 of the City Code.

5. Prior to the issuance of the first building permit for
Phase 1 of the Project, Developer, in cooperation with the Hallandale Opportunity
Program (HOP) administered by the City Human Services Director, or a
comparable program available to achieve the purposes of this paragraph, will
formulate and implement a “Community Benefit Plan” (the “CBP”) for Phases
1 and 2 of the Project. Prior to the issuance of a building permit for Phase 1 of
the Project, Developer shall submit their CBP plan to the HOP Administrator and
receive approval as outlined below. Upon review by the HOP Administrator, the
CBP plan shall be submitted to the City Manager for review and approval. The
CBP plan shall establish and delineate the parameters of the program as described
below and how the program goals will be achieved. The CBP will serve as
evidence that the program has been formulated and will be implemented subject
to refinements as construction proceeds. The requirements of this program will
be implemented on a building by building basis as each of the Major Buildings
comprising the Project are constructed and completed. Notwithstanding the
foregoing, the CBP relative to the Permanent Local Workforce (the “Permanent
Workforce CBP”) for construction employment and Local Vendor Utilization
during the Renovation Phase of the Project will be formulated within 90 days of
the effective date of this Agreement and implemented in conjunction with the
Renovation Phase of the Project and as set forth below.

a. Permanent Workforce CBP: The Permanent
Workforce CBP will include, among other things, the
following components:

(i) Developer anticipates that approximately 600
permanent employees will need to be hired to meet the
employment needs of the Project at build out. The
Developer will implement or cause to be implemented the
goal that twenty percent (20%; 120 of the anticipated 600
permanent employees) of the employees hired as
Immediate Hires and during the “Initial Hiring Period” (as such terms is defined below) for each facility within the Project will be residents of Hallandale Beach. “Initial Hiring Period” means the period from pre-opening of a facility within each Phase of the Project until the end of the first six (6) months of operation at such facility;

(ii) Within 24 months of the effective date of this Agreement, Developer will hire a minimum of twenty (20) Hallandale Beach residents to work at the Project for on-going and re-opening operations (“Immediate Hires”) and

(iii) Developer will provide $20,000 to fund training programs to be administered by HOP in cooperation with Developer (the "Training Investment") to provide training for residents of Hallandale Beach with skills needed for current and future jobs in the culinary industry, hospitality, marketing and other employment areas to be needed at the Project, as well as construction and building trades.

b. **Local Workforce Utilization:** the CBP for construction employment opportunities created by the Project will address the following additional issues:

**Construction Workforce:** The goal of having a minimum of ten percent (10%) of the workers hired for construction jobs at the Project, including general laborers and specialized trades, to be residents of Hallandale Beach, also known as Local Workforce. Local Workforce in this capacity shall be defined as any worker that is directly working on the project, during design and/or construction, who resides within the City as a renter or homesteaded property owner. Those classified as local workforce shall be provided with not only work directly on the project, but also provided the opportunity to generate a tangible sustainable impact after the project is complete. This may include, but not be limited to, participation in an apprentice program, mentorship program, training, long term employment beyond the term of the project, etc.

c. **Local Vendor Utilization:**

In an effort to promote economic development in the City, Developer shall use commercially reasonable efforts to contract with companies that are (1) owned by City residents, (2) located within the City or (3) those firms that can demonstrate to have an established network or one or both of the previous components, for goods and services to meet the operational and construction needs of the Project where such companies are otherwise
qualified and competitive. A goal of the CBP will also be that Developer’s general contractor (or construction manager) will work with the City to identify qualified City of Hallandale Beach contractors or contractors that are insured and demonstrate the ability to establish a network of local Hallandale Beach vendors, meet the terms and conditions required by any contractor, subcontractor, materialman or laborer and can be bonded and provide pricing that is competitive to bids received, so that 10 percent (10%) of the direct hard construction costs are provided by City of Hallandale Beach contractors and/or businesses. In addition, the General Manager of the Project operations will work with the City to identify companies located within the City of Hallandale Beach to meet this goal as to ongoing and future operations within the Project.

d. Hallandale Opportunity Project (HOP) Collaboration:

(i) Local Workforce: Developer shall work with the HOP to identify the Construction and Permanent Local Workforce for the project as follows:

(a) Construction Local Workforce: Developer will include in its bid package for each Major Building a provision which advises potential bidders that the CBP will need to be implemented as part of this construction and the details of such CBP. The Developer will assure that its general contractor provides the HOP Administrator with a list of the types of jobs anticipated and the necessary qualifications sufficiently in advance of any hiring so that HOP can identify those residents meeting the identified qualifications. In the event HOP is unable to identify a sufficient pool of qualified resident candidates within 1 year of the date of issuance of the first building permit for a particular Major Building to meet the goal of 10% of construction jobs being held by Hallandale Beach residents, Developer will have the option of contributing $50,000 less $1000 for each resident hired for a construction job for such Major Building to the City to either fund training programs for Hallandale Beach residents seeking employment in the construction industry or to fund an apprenticeship program at the Project to pay for Hallandale Beach residents selected by Developer to work on construction of the Project or similar program to be mutually agreed upon by City and Developer.

(b) Permanent Local Workforce: Developer will work with the operators of each hospitality, culinary and recreation facility within the Project to implement the CBP. The Developer will assure that its operators provide the HOP Administrator with a list of the types of jobs anticipated and the necessary
qualifications sufficiently in advance of any hiring so that HOP can identify those residents meeting the identified qualifications. At the termination of each Initial Hiring Period, Developer shall report to the City Manager as to how many residents of Hallandale Beach were hired. If less than 20% of the employees at such facility during such Initial Hiring Period are residents of Hallandale Beach, then Developer will contribute $1000 per unmet position at each such facility to the City for funding of appropriate training programs for residents of Hallandale Beach, with a total funding obligation not to exceed $120,000.00, with a credit of $20,000.00 for the Training Investment.

(ii) **Local Vendors:** HOP shall provide Developer with a list of all relevant Business Tax Receipts within the City, as well as, a list of known local vendors utilized on previous projects within the City.

e. **Reporting:** Developer shall report on a quarterly basis to the City, through the HOP Administrator, on the number of Immediate Hires, Construction and Initial Permanent Workers hired and how many of said workers are Hallandale Beach Residents. The first reporting quarter shall begin 180 days after the effective date of this Agreement and conclude three months (3) after the issuance of the first certificate of occupancy for the last Major Building.

6. Subject to obtaining minor site plan approval pursuant to Sections 32-782 and 32-783 of the City Code and obtaining a building permit, a temporary sales center may be constructed either as a new free-standing structure or through renovation of all or a portion of an existing structure and such sales center may continue to operate for so long as active hotel and/or residential unit sales for the Project continue. However, any portions of the sales center within a temporary structure will be demolished if the Major Development Approval for the Project expires.

7. All required trees shall be at least fifteen (15) feet in overall height and two (2) inch caliper. Relocation of existing trees shall be conducted as specified in the plans and shall comply with the City’s Tree Preservation requirements.

8. Prior to the issuance of a building permit for each Major Building, the Developer shall address the following in the Project plans or by entering into one or more agreements acceptable to the City:

a. Provide drainage calculations which comply with Broward County regulations and City criteria to retain five (5) years, One (1) hour storm on-site. Developer shall thereafter, during Project
construction, construct all on-site storm water improvements necessary to retain proper drainage and run-off.

b. Contract with the City of Hallandale Beach for roll out service and sanitation collection to be provided by the City so long as it is available. If a condominium form of ownership is contemplated, provisions acceptable to the City Attorney shall be included in the condominium documents addressing this requirement.

c. Construction, at its own cost, of the sanitary sewer infrastructure upgrades required as a result of the project pursuant to the conceptual plans for same attached hereto as Exhibit C.

d. Pay the applicable water and sewer fees as required by the City Code; provided, however, the Developer shall be provided impact fee credits for any water and sewer facilities, including lines, installed by Developer for the Project which improvements are already part of the capital improvement plan funded by such water and sewer impact fees.

e. Provide 2 charging stations in each of the parking garages to accommodate electric vehicles and provide for garbage recycling in each Major Building.

f. The Project shall be designed and constructed to comply with Section 32-787 of the Code of Ordinances and obtain a Green Building certification from a recognized environmental agency. Prior to the issuance of the each building permit for a Major Building, Developer shall provide evidence of the project’s registration or application seeking such certification, including an initial assessment of the planned achievements which are anticipated to result in such certification.

9. Prior to the issuance of a building permit for Building 100 on the Site Plan, contribute an amount of $1,325 per residential unit (maximum 250 units) to the City’s affordable housing trust fund. This per unit cost represents the City’s most recently calculated average assistance provided per affordable unit of $8,833.33 for each unit required, which is 15% of the units being constructed. (250 *15% * $8,833.33 = $331,250).

10. In order to preserve the views of the golf course from the public right of way and sidewalk along Diplomat Parkway, Developer hereby establishes the “Diplomat Parkway View Corridor” from a point north of the proposed driveway into Building 100 to a point south of the main entrance to the Project and for a depth of 100’ west of the east property line of the Property as delineated on Exhibit D. The Developer agrees that, as reflected on the Site Plan and Exhibit D, no structures will be developed within the Diplomat Parkway View Corridor.
11. The number of stories of the Major Buildings may increase or decrease from those reflected on the Site Plan so long as the measured height of such Major Buildings does not exceed that reflected on the Site Plan and the minimum ceiling height within the living rooms and bedrooms of all residential units and hotel rooms within Major Buildings shall be nine (9) feet floor to floor measured from the top of the structural floor to the top of the structural floor above.

12. Prior to the issuance of a building permit for a Major Building, Developer will contribute $25,000.00 to the City Historic Commission for the Historic Commission to fund preparation of a report which chronicles the mid-20th Century history of the “Diplomat Country Club” and other mid-20th Century Hallandale icons.

B. Transportation and Mobility Commitments.

1. Improvements to Atlantic Shores Blvd.: Developer recognizes that a primary corridor for access to the property will be Atlantic Shores Blvd. Atlantic Shores Blvd. intersects with Federal Highway as one of the City’s primary north-south transportation corridors and that improvements to Atlantic Shores Blvd. will enhance the accessibility of the Property. Developer agrees to fund the reconstruction of Atlantic Shores Blvd. from Federal Highway to Diplomat Parkway in compliance to the design(s) of the varied roadway cross sections (see Exhibit E, the “Atlantic Shores Improvements”) and City has agreed to design and construct the Atlantic Shores Improvements. The City has allocated funding toward the design of the Atlantic Shores Blvd. reconstruction. The City has committed to advancing this project as a means of improving the streetscape, addressing on-street parking, and creating a more pedestrian friendly corridor that is consistent with the Basis of Design Report. The City will assume responsibility for all predevelopment efforts (design, permitting, and bidding for construction services). Therefore, the Developer’s funding commitment will be limited to the cost of construction (hard costs) once the lowest responsive, responsible firm is selected (the “Final Cost”) and will be payable as follows:

   a. $1,000,000.00 within 24 months from the effective date of this Agreement (the “First Payment Date”); provided, however, in the event the City has not obtained the necessary permits and approvals to construct the Atlantic Shores Improvements by the First Payment Date, then Developer will make this first payment within 30 days of City advising Developer, in writing that it has obtained all the necessary permits and approvals to construct the Atlantic Shores Improvements and such approvals are final;

   b. $1,250,000.00 on the one year anniversary of the date that the first payment of $1,000,000.00 is made by Developer; and

   c. $1,250,000.00 on the second year anniversary of the date that the first payment is made by Developer.
Notwithstanding the foregoing, in the event the Final Cost is less than $3,500,000.00 then each of the 3 payments outlined above will be reduced pro rata so that Developer's total cost of construction is equal to the Final Cost.

2. Improvements to Diplomat Parkway: Since Diplomat Parkway is the primary roadway through which Project construction vehicles will access the Property, prior to the issuance of the first certificate of occupancy for the third Major Building within the Project, but no later than seven (7) years from the effective date of this Agreement, Developer will mill and overlay existing asphalt roadway including new pavement markings and reflectors on Diplomat Parkway from Hallandale Beach Blvd. to Atlantic Shores Blvd. as reflected on Exhibit F attached hereto (the "Diplomat Parkway Improvements"); provided, however, in the event at the time of permitting of the Diplomat Parkway Improvements, the construction cost of these improvements is determined by Developer and City to exceed $350,000.00, Developer and City will modify such improvement plans so that the maximum cost to Developer for these improvements is $350,000.00. or the City may secure additional funding and pay Developer for such additional cost.

3. Within sixty (60) days of the Major Development Approval for the Project becoming final and not subject to appeal, Developer will contribute $40,000 to the City as partial funding of the City's pending Citywide Mobility Study which study will assist in assuring that access to and from the Project is provided in an efficient manner.

4. Prior to the issuance of a building permit for any Major Building and prior to the issuance of the first certificate of occupancy for Buildings 100, 200 and 300, the Developer will contribute $100,000.00 to the City to be used to fund improvements (new vehicles, expanded or new routes, new bus stops, etc.) to the Citywide Circulator/municipal bus service for a total contribution of $400,000.00 to the City for these purposes.

5. Prior to the issuance of the first certificate of occupancy for a Major Building within the Project, subject to receipt of all necessary governmental approvals, the Developer will complete the following:

- Lengthening of the southbound left-turn lane at Hallandale Beach Boulevard and Diplomat Parkway to 250 feet. (Estimated cost $350,000.00)

- Coordinate, request and pay for, if required by BCTED or FDOT, (Estimated cost $75,000.00) traffic signal timing modifications and provide the City with a copy of such request and responses from the county and FDOT on the request, at the following intersections:
  - US 1/ SE 3rd Street
  - US 1/ Hallandale Beach Boulevard
○ US 1/ Pembroke Road
○ Hallandale Beach Boulevard/ SE 14th Avenue
○ Hallandale Beach Boulevard/ Diplomat Parkway

- Implementation of the northbound right-turn overlap signal phase at US 1/ Hallandale Beach Boulevard. (Estimated cost $50,000.00)

It is understood that the preceding intersection improvements will be done in accordance with, and subject to the review of, the City's Mobility Consultant in order to ensure that proposed improvements by the Developer will work in concert with citywide mobility enhancements.

6. In consideration of the foregoing transportation and mobility contributions, the City hereby waives the applicable municipal transportation mitigation fee of $1,165,830.

7. In consideration of the parking modifications approved as part of this Agreement, Developer agrees to construct an additional level of parking within the parking garage for Building 300 and to provide City with 45 of the additional parking spaces to be constructed within that additional level to be used as public parking spaces (the "City Spaces") on the lowest level of such parking garage and to accommodate this additional parking level, the height of Building 300 shall be increased by up to ten feet above that reflected on the Site Plan. Prior to the issuance of a certificate of occupancy for Building 300, Developer and City will enter into a lease for the City Spaces which shall provide, among other things necessary and proper for such a lease arrangement, that:

a. the term of this lease shall be renewed annually for so long as Building 300 is operated as a hotel unless the City and Developer determine that the City Spaces are not getting utilized by the public and the City Spaces should be released to be used by Developer;

b. the annual rental shall be at a rate of $1 per year plus the cost to Developer to maintain the City Spaces as such cost may change annually as the Building 300 Common Area Maintenance costs are assessed each year;

c. the City will maintain insurance for the City Spaces; and

d. City may install parking meters or otherwise charge for or manage the use of the City Spaces by Hallandale Beach residents.

In consideration that Building 300 will not be constructed for many years, Developer agrees that within 90 days of the effective date of this Agreement, Developer will provide 45 at grade parking spaces within
existing parking areas on the Property, subject to the terms outlined above except that the requirement for these at grade parking spaces will expire once Building 300 is completed.

C. Public Safety Commitments

1. Capital Improvements to Police and Fire Department: In recognition of the increased demand on public safety services anticipated from the Project, prior to the issuance of the first building permit for each Major Building, the Developer will contribute an amount based upon the final development program within each such Major Building at the following rates: $217 per residential unit for police services and $204 per residential unit for fire services; and, $.31 per square feet of new commercial development for police services and $.40 per square feet of new commercial development for fire services (the “Impact Fee Rates”). The funds paid by Developer pursuant to the Impact Fee Rates shall be used by the City to provide necessary capital improvements in public safety departments, including, but not be limited to, expansion of fire station 60 (Three Islands Blvd.) and construction of a police training facility. Based upon the current maximum build out scenario for the Project as set forth on the Site Plan (250 residential units x $421 per unit = $105,250 and 994,280 square feet of commercial development x $.71 = $705,939.00), Developers maximum public safety contribution will be $811,189.00 (the “Maximum Public Safety Contribution”).

2. Effect of City Adoption of Future Public Safety Impact Fee: It is understood that City has not adopted an impact fee for police and fire service. In the event the City adopts an impact fee for police and/or fire services at any time prior to issuance of the last building permit for a Major Building and such impact fees for the Project when calculated pursuant to such adopted impact fee ordinance are less than the Maximum Public Safety Contribution, any development within the Project for which a building permit is sought after adoption of such impact fee shall be subject to the new impact fee schedule and Developer will be credited for any over payment already made for buildings which were permitted prior to the adoption of the impact fee ordinance.

Notwithstanding the foregoing, the Developer’s obligation to pay a title transfer fee as set forth herein shall expire upon the issuance of a building permit for the second Major Building within the Project.
