

Recycling Services

Residential Recycling

Hallandale Beach residents are reminded that recycling is an easy and vital way to help preserve our future and protect our environment. Residents may place all acceptable recyclable materials in the blue recycling container that is provided by the City. The recycling container will be picked up once a week on the same day as regular garbage collection. There is a \$2.00 fee for each recycling container that is automatically charged in the monthly water bill.

Collection Information

Place the blue recycling container at curbside approximately 3 feet away from the green garbage container on the same day scheduled for garbage pick-up.

Place the blue recycling container and the green garbage container at curbside no later than 6:00 AM on your scheduled collection day.

Collection will occur from 7:00 AM until 5:00 PM on your collection day.

This is a commingled curbside program. You do not have to separate any of the materials. You can put all accepted materials in the blue recycling container.

Please do not place recyclables in plastic bags before recycling. Plastic bags damage recycling equipment!

The blue recycling container is assigned to your residence and you are responsible for its maintenance and safe keeping.

The blue recycling container is the property of the City of Hallandale Beach. If you move, please leave the recycling container behind.

Participation in the program is not optional and everyone in the City will pay for the service as part of their basic monthly sanitation service fee.

Recycling for Multi-Family/Commercial Accounts

The City is committed to encouraging recycling to reduce the amount of solid waste that we put in the landfill.

Recognizing that multifamily recycling programs are important for Hallandale Beach's continued success in waste reduction and recycling, the City offers a recycling program for properties with five (5) units or more. **A successful recycling program may be able to help you to reduce garbage service fees.**

Residents of multi-family housing are not able to sign up for recycling service on their own. If there is no recycling at your complex, you can encourage the board members/management to establish a recycling program by letting them know it is important to you. Board member/Complex managers will need to contact the Sanitation Division at 954-457-1616 to schedule an appointment, or you can email jsimmons@cohb.org to get recycling service started. Please include the following information in the body of the email:

- Complex name
- Street address
- Contact name and phone number
- FAX number
- Email address
- Number of household units in the complex

A representative will come to your site to help assist with your building's needs, because requirements vary from building to building. The City of Hallandale Beach encourages all residents to recycle as it assists in making a greener tomorrow.

Electronics Recycling Drop- Off

Residents can bring any of the following items for recycling at the City's electronics recycling station:

- Rechargeable batteries
- Computers (including monitors, keyboards and printers)
