Scope of Work

The project consists of the installation of the City’s wayfinding signage program. The intent is to provide guidance and navigation information to local cultural, municipal, recreational and tourist activities. The construction of the signage was implemented into two (2) phases:

- Phase 1 - The installation of the Vehicular Directional Signs was completed in May 2016.
- Phase 2 - The installation of six (6) Entry Monument Signs will commence on 11/28/2016 and is scheduled to be completed by the end of January 2017. The Entry Monument Signs will be installed at key entry points into the City.

Monument Signs

Sign Type PP2
Sign Type MN4
Sign Type MN1
