

City of Hallandale Beach – Public Works Department

Starting Project Notification

Generator Engine Compliance

Scope of Work:

The project scope consists of generator updates at the Water Treatment Plant and at the Municipal Complex. The City participates in Florida Power & Light's Commercial Demand Reduction program which is a load management program to reduce usage during peak hours. The generator engine compliance project ensures that the City's generators are EPA compliant and meet the requirements of Reciprocating Internal Combustion Engines/ National Emission Standards for Hazardous Air Pollutants (RICE/NESHAP) standards to continue Florida Power & Light's load control program.

Schedule:

The construction of the Generator Engine Compliance **will start on October 21, 2016**, and is scheduled to be completed by October 28, 2016. 2016.

Budget:

The work will be completed by Hill York and the construction budget is \$116,150.
