Section 1 - Account Information

Fund: General Fund-001 Sub-Type: **Ad Valorem Taxes-General Fund**
 Dept. No.: 1305 Type: **Ad Valorem Taxes**
 Account: 001.311100

Section 2 – Description

Ad Valorem Tax or "property tax" is the tax levied on Hallandale Beach property owners based on the assessed value of the real property as determined by the Broward County Property Appraiser (BCPA). A maximum of \$10 per \$1,000 of value, or 10 mills, which includes the millage for the Golden Isles Safe Neighborhood District and the Three Islands Safe Neighborhood District since they are dependent districts, can be assessed by the City. The budget is based on total taxable value times the millage rate less 3.0% for discounts which is shown in account 001.311200.

Section 3 – Other Data

*******RATE CHANGE*******

RATE – FY 17/18 - Millage Rate – 5.3093
FY 18/19 - Adopted Millage Rate – 6.3191

REVENUE TREND – Based on a 4.12% increase in the July 1st estimate of taxable value from the Broward County Property Appraiser’s Office and setting the millage rate at 6.3191 mills.

The FY 18/19 General Fund operating millage rate is 6.3191 mills and the Parks General Obligation (GO) Bond debt service millage rate is .4162 mill. The Citywide operating millage is 1.0098 mills higher than the FY 17/18 millage rate of 5.3093, which is offset by a decrease of .0743 mill in the GO Bond millage rate and an increase in millage of .9355.

Fund:	General Fund-001	Sub-Type:	Communications Services Tax
Dept. No.:	1305	Type:	Local Service Taxes
		Account:	001.315200

Section 2 – Description**Local Government Financial Information Handbook Summary (Chapter 202, F.S.):**

The Communications Services Tax (CST) applies to telecommunications, video, direct-to-home satellite, and related services. The definition of communications services encompasses voice, data, audio, video, or any other information or signals transmitted by any medium. Examples of services subject to the tax include, but are not limited to, local, long distance, and toll telephone; voice over Internet protocol telephone; video services; video streaming; direct-to-home satellite; mobile communications; private line services; pager and beeper; telephone charges made at a hotel or motel; facsimiles; and telex, telegram, and teletype. The tax is imposed on retail sales of communications services which originate and terminate in the state, or originate or terminate in the state and are billed to an address within the state. The tax is comprised of two parts: the Florida Communications Services Tax and the local Communications Services Tax. Tax proceeds are transferred to county and municipal governments, the Public Education Capital Outlay and Debt Service Trust Fund, and the state's General Revenue Fund.

Chapter 2015-221, Laws of Florida (LOF), (HB 33-A) amended several sections of Chapter 202, F.S., to reduce the state CST rate by 1.73 percent. The changes became effective on July 1, 2015.

Local Communications Services Tax:

A county or municipality may authorize by ordinance the levy of a local Communications Services Tax. The local tax rates vary depending on the type of local government entity. For municipalities and charter counties that have not chosen to levy permit fees, the tax may be levied at a **rate of up to 5.1 percent**. For municipalities and charter counties that have chosen to levy permit fees, the tax may be levied at a rate of up to 4.98 percent. Non-charter counties may levy the tax at a rate of up to 1.6 percent. These maximum rates do not include **add-ons of up to 0.12 percent for municipalities** and charter counties or up to 0.24 percent for non-charter counties that have elected not to require and collect permit fees authorized pursuant to s. 337.401, F.S., nor do they supersede conversion or emergency rates authorized by s. 202.20, F.S., which are in excess of these maximum rates. In addition to the local Communications Services Taxes, any local option sales tax that a county or school board has levied pursuant to s. 212.055, F.S., is imposed as a local Communications Services Tax, and the rate shall be determined in accordance with s. 202.20(3), F.S.

During 1996, the Florida State Legislature enacted a bill, Florida Statute 849.086 which allows racing facilities to have a card room for penny ante poker. The facilities are allowed to have the card rooms starting January 1, 1997 and can operate for six months of each year. Tables can be active two hours before and two hours after regularly scheduled races. A 10% tax is to be collected on the gross revenue of each poker room. The State receives 75% and the County 25% of the tax. The bill allows each City containing two racing facilities (Hallandale) to receive what otherwise would be the County's share.

REQUEST – FY 18/19

Request of \$2,653,672 is based on information received from FPL’s website on March 16, 2018.

October 2018 through May 2019 – used average monthly actual revenue of \$218,921 from the FY 17/18 projection above.

June 2019 through September 2019 – used average monthly actual revenue of \$218,921 and increased it by 3.04% for these 4 months.

Calculation:

October 2018 through May 2019 - \$218,921 X 8 months = \$1,751,368

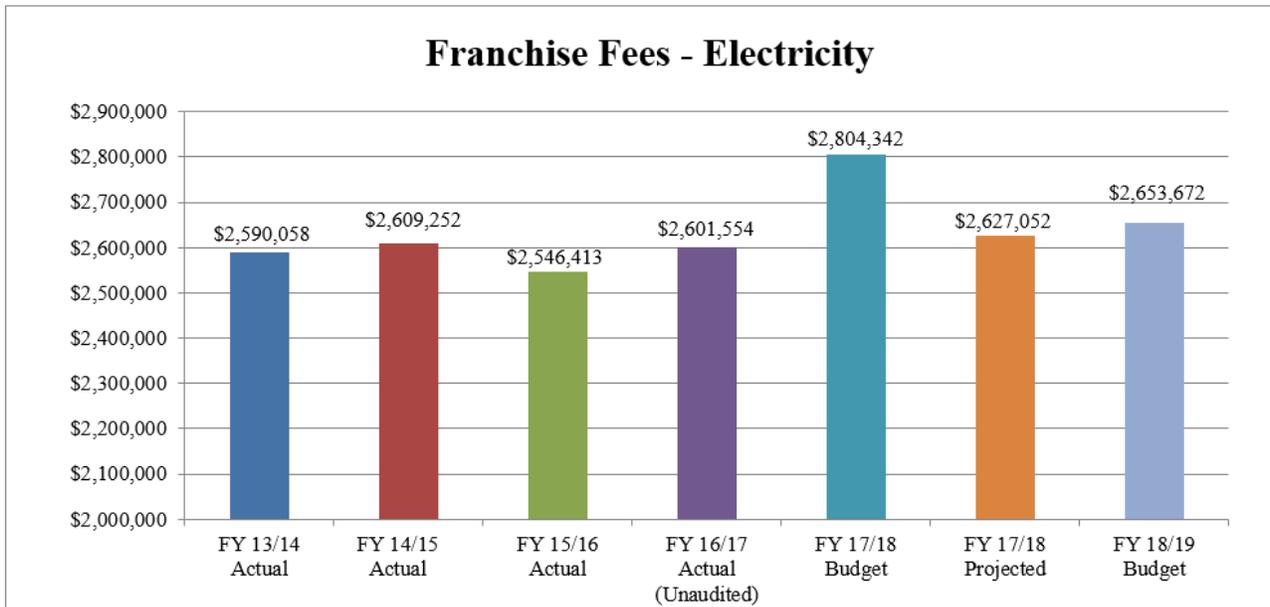

June 2019 through September 2019

\$218,921 X 1.0304 increase = \$225,576/month X 4 months = \$902,304

TOTAL REQUEST **\$2,653,672**

Projection of \$23,124 is based on 4 months of actual revenue.

Actual revenue of \$7,706/4 months = \$1,927/month X 12 months = \$23,124.

TOTAL PROJECTION \$23,124

REQUEST – FY 18/19

Request of \$23,124 is based on 4 months of actual revenue through January 2018. Also, the price per therm charged to customers for usage varies each month, depending on the market price of natural gas which is anticipated to remain relatively flat. Therefore, revenue is affected by both the price per therm and customer usage.

Section 2 – Description

The Florida Revenue Sharing Act of 1972 established a Revenue Sharing Trust Fund for both counties (the County Revenue Sharing Trust Fund) and municipalities.

This revenue represents funds collected by the Revenue Sharing Trust Fund for Municipalities. This Program is administered by the Florida Department of Revenue, and monthly distributions are made to eligible municipal governments. Funds collected in this Trust Fund include **76.2% from Sales and Use Tax Collections (General Fund)** and 23.8% from the One-Cent Municipal Fuel Tax on Motor Fuel (Transportation Fund). These percentages became effective July 1, 2016.

The Municipal Gas Tax portion of this revenue is in the Transportation Fund, account number 160.335120.

Section 2 – Description**December 2017 Local Government Financial Information Handbook Summary:**

Authorized in 1982, the Local Government Half-cent Sales Tax Program generates the largest amount of revenue for local governments among the state-shared revenue sources currently authorized by the Legislature. It distributes a portion of state sales tax revenue via three separate distributions to eligible county or municipal governments. Additionally, the Program distributes a portion of communications services tax revenue to eligible local governments. Allocation formulas serve as the basis for these separate distributions. The Program's primary purpose is to provide relief from ad valorem and utility taxes in addition to providing counties and municipalities with revenues for local programs.

The program includes three distributions of state sales tax revenues collected pursuant to Florida State Statute, Section 212. The *ordinary* distribution to eligible county and municipal governments is possible due to the transfer of 8.9744 percent of net sales tax proceeds to the Local Government Half-cent Sales Tax Clearing Trust Fund [hereinafter Trust Fund]. The *emergency* and *supplemental* distributions are possible due to the transfer of 0.0966 percent of net sales tax proceeds to the Trust Fund. The emergency and supplemental distributions are available to select counties that meet certain fiscal-related eligibility requirements or have an inmate population of greater than seven percent of the total county population, respectively.

As of July 1, 2006, the program includes a separate distribution from the Trust Fund to select counties that meet statutory criteria to qualify as a *fiscally constrained county*. A fiscally constrained county is one that is entirely within a rural area of opportunity as designated by the Governor pursuant to s. 288.0656, F.S., or for which the value of one mill of property tax levy will raise no more than \$5 million in revenue based on the taxable value certified pursuant to s. 1011.62(4)(a)1.a., F.S. This separate distribution is in addition to the qualifying county's ordinary distribution and any emergency or supplemental distribution.

 Dept. No.: 1305

Sub-Type: **Local Option Gas Tax**
 Type: **Shared Revenue Local Unit**
 Account: 160.338300

Section 2 – Description

County governments are authorized to levy up to 12 cents of local option fuel taxes in the form of three separate levies.

The first is a tax of 1 to 6 cents on every net gallon of motor and diesel fuel sold within Broward County. The proceeds are used to fund specified transportation expenditures. The revenue for this tax is budgeted in this account.

The second tax is a 1 to 5 cent levy upon every net gallon of motor fuel only, not diesel fuel, sold within Broward County. The proceeds are used for transportation expenditures needed to meet the requirements of the capital improvement element of the City’s adopted Comprehensive Plan. The revenue for this tax is budgeted in account number 160.338400.

The third is a tax of 1 cent on every net gallon of motor and diesel fuel sold within Broward County. This tax is referred to as the Ninth-Cent Fuel Tax. The proceeds are used to fund specified transportation expenditures. No revenue is derived from this tax.

The County’s proceeds from the 1 to 6 cents and the 1 to 5 cents fuel taxes are distributed to municipalities based on the Interlocal Agreement between Broward County and the City. The agreement is amended in May of each year. With regard to the Ninth-Cent Fuel Tax, the County is not required to share the proceeds of this tax with the City.

Section 2 – Description

Ad Valorem Tax related to the \$57.5 million General Obligation (GO) Bond, Series 2016; approved by the residents in November 2014 and issued on June 21, 2016 to improve/upgrade existing parks and construct additional parks throughout the City. This debt service tax, levied on Hallandale Beach property owners, is based on the assessed value of the real property as determined by the Broward County Property Appraiser (BCPA) and will generate the revenue required to cover the debt service payments on this bond. The budget is based on total taxable value times the millage rate less 3.0% for discounts which is shown in account 202.311200.

RATE – FY 17/18 – Millage Rate for GO Bond Debt Service - .4905

REVENUE TREND – Based on a 4.12% increase in the July 1st estimate of taxable value from the Broward County Property Appraiser’s Office and setting the millage rate at .4162 mill.

The FY 18/19 General Fund operating millage rate is 6.3191 mills and the Parks General Obligation (GO) Bond debt service millage rate is .4162 mill. The Citywide operating millage is 1.0098 mills higher than the FY 17/18 millage rate of 5.3093, which is offset by a decrease of .0743 mill in the GO Bond millage rate and an increase in millage of .9355.

REQUEST – FY 18/19

The residents of Hallandale Beach approved the \$57.5 million General Obligation Bond, Series 2016 in November 2014 and the bonds were issued on June 21, 2016. The revenue generated at the millage rate of .4162 will cover the FY 18/19 debt service payment on these bonds.

Request of \$2,328,118 gross revenue is based on a 4.12% increase in the July 1st estimate of taxable value from the Broward County Property Appraiser’s Office and setting the millage rate at .4162 mill.

It is possible to reduce the debt service millage for FY 18/19 for two reasons. The first is an increase in the value of the mill by 4.12%. The second is that interest earned on fund balance in the GO Bond Fund in the amount of \$874,034 will reduce the funds needed from debt service millage.

$\$5,593,746,394 \times .4162 = \$2,328,118$

Section 4a – Calculation-Projections

PROJECTION – FY 17/18

Actual revenue of \$102,328 was collected from 10/01/17 through 04/04/18.

This is the amount collected through the online lien system (Conduits) at a fee of \$125 per lien search.

The following calculation is based on an average of 142 lien searches per month with no change in the fees:

Currently, the City processes an average of 142 lien searches a month via the Conduits online lien system search. With a fee of \$125 charged per folio, it is estimated that the monthly revenue of \$17,750 (142 lien searches X \$125) will result in a total of \$106,500 (\$17,750/month X 6 months) for the remaining six months. Therefore, the revenue for the year is anticipated to be \$208,828 (\$102,328 plus \$106,500).

A \$10 transaction fee was paid per transaction by the City from October 2017 through March 2018 in the amount of \$7,050 (an average of \$1,175 per month) to the online processing company. Commencing July 1, 2018, the transaction fee will be \$12, for an average cost of \$1,704 (142 lien searches X \$12) per month. This fee is charged to account #1910-554040. The estimated transaction fee for the year of \$15,687 (October 2017 through March 2018 is \$7,050, April through June which is 3 months at an average of \$1,175 per month equals \$3,525 and July through September which is 3 months at an average of \$1,704 per month equals \$5,112) will result in a projected net revenue of \$193,141 (\$208,828 less \$15,687).

TOTAL PROJECTION**\$208,828****REQUEST - FY 18/19**

The average number of lien searches for the first five months of FY 17/18 was 142. Therefore, staff is estimating revenue of \$221,520 for FY 18/19.

142 lien searches per month X \$130 = \$18,460 revenue per month X 12 months = \$221,520

The City held a Special Election on March 13, 2018 for the filling of Commissioner Seat 1. At the time of qualifying, four (4) candidates paid filing fees (4 X \$50 per candidate equals \$200) to the City.

The City will hold a Special Election on November 6, 2018 for the filling of the Mayoral Seat. The candidate qualifying period will be from noon, June 18, 2018 through noon, June 22, 2018. At the time of qualifying, these fees will be paid by the candidate to the City which will be reflected in FY 17/18. Staff anticipates there will be no more than three (3) candidates qualified for the Special Election for the Mayoral Seat. Three (3) candidates X \$50 per candidate equals \$150.

The City will hold its next Municipal General Election on November 6, 2018 for the filling of two (2) City Commission Seats (Commission Seats 1 and 2). The candidate qualifying period will be from noon, June 18, 2018 through noon, June 22, 2018. At the time of qualifying, these fees will be paid by the candidate to the City which will be reflected in FY 17/18. Staff anticipates there will be no more than six (6) candidates qualified for the 2018 election for the two (2) seats. Six (6) candidates X \$50 per candidate equals \$300.

Section 5 – History / Fee Booklet

Per the Hallandale Beach Code of Ordinances, candidates are required to pay the City a \$50.00 Municipal qualifying fee. These fees are recorded as revenue and are deposited in revenue account #1910.341230. The State Election Assessment is 1 percent of the annual City Commission Salary and is deposited in liability account #001.229991. The State Election Assessment must be deposited in the Florida Elections Commission Trust Fund 30 days after the close of qualifying. Because the 1 percent assessment is passed through to the State from the City it is recorded as a liability and not included as a revenue source.

Election late fees (F.S.106.0705) charged to candidates who fail to pay the \$50 Municipal Qualifying Fee on time, are deposited under Other Miscellaneous Revenue (account #001.369990) in the General Fund. The fine is \$50 per day for the first 3 days late and, thereafter, \$500 per day for each late day, not to exceed 25 percent of the total receipts or expenditures, whichever is greater, for the period covered by the late report.

REQUEST – FY 18/19

Staff anticipates the City will continue on the path of transparency by providing additional information on the City’s website and through other electronic means, thereby fulfilling less public records requests. Nevertheless, it is difficult to anticipate the nature, number and volume of public records requests that will be received by the City. However, the City Clerk’s office is requesting revenue of \$1,000 for FY 18/19.

The City Clerk’s Office also provides Public Notary Service for related and non-related City documents to the public.

Section 2 – Description

Revenue from Hallandale Beach Community Redevelopment Agency (HBCRA) reimbursement

Section 3 – Other Data

*******NEW REVENUE*******

NEW REVENUE– The HBCRA recognizes that DPW has a diversified range of skilled personnel which the HBCRA desires to access for its occasional and dedicated needs as well as to provide property maintenance services for HBCRA properties.

Services - DPW agrees to provide the following services to the HBCRA (each a “Service” and collectively the “Services”):

- 1) Cutting of Grass (bi-weekly or as needed)
- 2) Trimming of Brush
- 3) Boarding up Existing Structures
- 4) Removal of Debris including Large Furniture Pieces

 Type: **Transportation**
 Account: 160.341250

Section 2 – Description

In FY 13/14, new Engineering Fees were added to capture all the elements entailed in the Engineering Review and Inspection Process. In addition, fees for driveways were revised to standard fees instead of being based on the cost of construction, as cost of construction does not affect the amount of review and inspection time.

Section 3 – Other Data

*******FEE INCREASES*******

REVENUE TRENDS – Effective with the FY 17/18 budget, this revenue is now recorded in the Transportation Fund for plan review fees related to roadway projects. Until FY 16/17, the Engineering Fees were budgeted in the General Fund

Section 2 – Description

Commercial Refuse Disposal Fee is revenue from commercial accounts serviced by the City. Commercial accounts are defined as businesses, schools, churches and other units that are nonresidential. The fee is based on the size of the dumpster and the frequency of service, plus a monthly container rental fee.

In FY 17/18, the City increased the commercial collection fees by 30% in order to make up the lost revenue by delaying the monetization of the value of the City’s sanitation accounts through the sale of the sanitation operation/assets in a competitive process.

 Dept. No.: 3660

Sub-Type: **Stormwater Drainage Fee**
 Type: **Charges for Services**
 Account: 440.343317

Section 2 – Description

Revenue is generated from stormwater utility fee billings on real estate property within the City. Residential properties are billed at a rate determined by the City Commission called the Equivalent Residential Unit (ERU). Properties other than residential are billed by their equivalent number of ERUs, which is determined by dividing their impervious area by the impervious area calculated for the average residential property in Hallandale Beach.

Section 3 – Other Data

*******NO CHANGE*******

REVENUE TRENDS – The City is implementing a community-wide program to improve drainage and mitigate flooding, in addition to improvement of stormwater quality. For many years, the City had one of the lower rates per ERU in Broward County and in the State of Florida. However, in FY 17/18, the Stormwater Drainage Fee increased from a rate of \$40.20 annually to \$88.44 annually. The \$48.24 rate increase included \$4.02 per year for balancing the fund and \$44.22 per year for the Southwest Drainage Project (FEMA Grant) of \$2,175,000 for a portion of the local match.

ARTICLE V. - STORMWATER MANAGEMENT UTILITY

Sec. 30-241. - Stormwater management utility fee

(a) A stormwater utility fee is imposed upon each lot and parcel within the city for services and facilities provided by the stormwater management utility. For purposes of imposing the stormwater utility fee, each residential dwelling unit shall be billed a flat fee established for residential units as the rate established for one equivalent residential unit (ERU).

(b) All nonresidential properties shall be billed based on their estimated impervious area divided by the ERU impervious area and then multiplied by the rate established for one ERU. The estimated impervious area of a nonresidential property shall be determined by multiplying the property area by the appropriate impervious factor as follows:

Use Designation	Impervious Factor
Commercial (B-O)	0.80
Commercial	0.85
Industrial	0.85
Commercial Recreational	0.25
Public and Institutional	0.75

Formula: stormwater utility fee for nonresidential property =

ERU rate x total area of property (in acres) x impervious factor ERU (in acres)

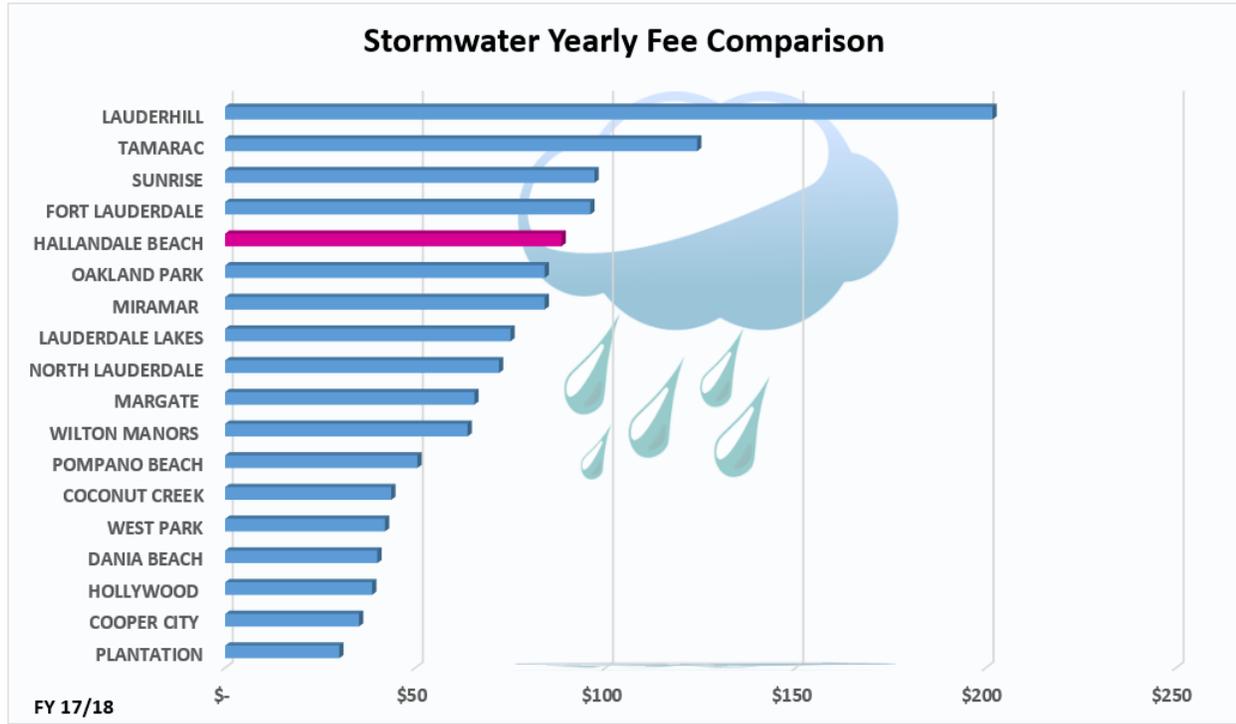

The minimum fee for any nonresidential parcel shall be equal to the rate for one ERU.

- (c) Undeveloped property and city-owned property shall be exempt from the stormwater utility fee.
- (d) The rate for one ERU shall be established in the schedule of fees and charges ("fee book"). This rate may be amended by resolution of the City Commission.

Section 2 – Description

The Water Impact Fee was first implemented in 1980. In July 2008, a report was issued setting forth a reasonable methodology and analysis for the determination of the impact of new development on the need for and costs of additional water transmission capital facilities in the City. This charge for impact on the water distribution system is to be levied as a one-time charge upon new users (connections) or new demand on the system created through expansions or renovations and is an appropriate and equitable method of capital cost recovery. The Water Impact Fee is to recover only the pro rata share of the capital costs incurred to meet the demands imposed by growth. Additionally, in order for the City to recover the carrying costs associated with providing new capacity today to meet the needs of future growth, the City Commission adopted the Accrued Guaranteed Revenue Charge (AGRCs) which would reimburse the City for the costs of constructing and maintaining water capacity in advance of new growth, and that such charges provide equity between existing and future customers of the water system. The revenues received from the AGRC’s are unrestricted and available for any lawful purpose of the system since such revenues are collected to reimburse the City for operating carrying costs. Per Ordinance, Section 30-253, Impact Fees and AGRC’s must be paid prior to the issuance of a building permit.

Section 2 – Description

Revenue from Annual Fire Line Rental Fees billed to customers with fire lines.

Beginning in FY 14/15, this revenue also includes the funds received to compensate for administrative functions pertaining to the City’s Cross-Connection Control Program. This replaced the “Backflow Prevention Inspection Program” revenue initiated in FY 13/14. The program envisioned in FY 13/14 was revised from an in-house permit-based program to a program utilizing an outside vendor.

Section 3 – Other Data

OTHER PERTINENT DATA – The Fire Line Rental revenue was transferred to the Public Works Department beginning in FY 11/12. Cross-Connection Control funds are derived from the City’s agreement with Backflow Solutions, Inc. (BSI). Per the agreement the City gets \$5.00 from BSI for each backflow device that is tested and registered with BSI.

Section 2 – Description

A report issued in July 2008 and a subsequent report dated 2009, set forth a reasonable methodology and analysis for the determination of the impact of new development on the need for and costs of additional wastewater transmission capital facilities in the City. This charge for impact on the wastewater system is to be levied as a one-time charge upon new users (connections) or new demand on the system created through expansions or renovations and is an appropriate and equitable method of capital cost recovery. The Wastewater Impact Fee is to recover only the pro rata share of the capital costs incurred to meet the demands imposed by growth. Additionally, in order for the City to recover the carrying costs associated with providing new capacity today to meet the needs of future growth, the City Commission adopted the Accrued Guaranteed Revenue Charge (AGRCs) which would reimburse the City for the costs of constructing and maintaining wastewater capacity in advance of new growth, and that such charges provide equity between existing and future customers of the wastewater system. The revenues received from the AGRC's are unrestricted and available for any lawful purpose of the system since such revenues are collected to reimburse the City for operating carrying costs. Per Ordinance, Section 30-253, Impact Fees and AGRC's must be paid prior to the issuance of a building permit.

Beginning in FY 13/14, a systematic method of budgeting was developed through a Vehicle Fleet Maintenance and Replacement Program initiated by the Fleet Services Division. This Program, through annual lease payments from the benefiting Departments provides a means to fund the maintenance and timely replacement of fleet vehicles in a predictable manner from year to year.

Fund: Fleet Services Fund-530
 Dept. No.: 4410

Sub-Type: **Fleet Auction Income**
 Type: **Other Misc. Revenue**
 Account: 530.364300

Section 2 – Description

As per Code of Ordinances, Chapter 20, City surplus items are auctioned. Revenue varies dependent upon the amount of surplus equipment to be sold, including vehicles, as projected and reported by the Fleet Services Superintendent. Property Room/Copart is being used to auction the vehicles; the vendor retains 13% of the bid price as its fee for administering the auction process.

Section 3 – Other Data

*******NO CHANGE*******

REVENUE TRENDS - Revenue fluctuates with the number of vehicles available for auction. Vehicle auction revenue received for the sale of vehicles that were originally purchased in the Fleet Services Fund is deposited in the Fleet Services Fund.

OTHER PERTINENT DATA - Effective with FY 12/13, the City Commission approved the establishment of the Fleet Services Fund. The majority of revenue results from the sale of surplus City vehicles and confiscated vehicles. For vehicles that are originally purchased in the Fleet Services Fund, the vehicle auction income for the sale of these vehicles is deposited in the Fleet Services Fund. For the sale of vehicles not originally purchased in the Fleet Services Fund, the vehicle auction income is deposited in account number 364300 in the respective fund where the vehicle was originally purchased. Therefore, staff did not budget revenue for the Fleet Fund 530 for FY 16/17.

Finance decided to allocate the revenue for vehicles purchased in other funds into the Fleet Fund. Therefore, staff began budgeting revenue effective FY 17/18.

Projected revenue from the sale of auctioned vehicles in FY 17/18 is \$40,750 less 13% fee of \$5,297 retained by the auction company for net revenue of \$35,453. From historical sale data, we have been receiving between 5% and 10% of current purchase price. This is largely due to excessive wear, age, and model outdate of units sold at auction.

TOTAL PROJECTION **\$35,453**

REQUEST - FY 18/19

The anticipated auction revenue for thirty-four (34) units (which include trucks, equipment and vehicles) to be replaced in FY 18/19 is estimated at \$47,750 less the 13% fee of \$6,207 retained by the auction company for net revenue of \$41,543.

TOTAL REQUEST **\$41,543**

Section 5 – History/Fee Booklet

Effective with FY 12/13, the City Commission approved the establishment of the Fleet Services Fund. For vehicles that are originally purchased in the Fleet Services Fund, the vehicle auction income for the sale of these vehicles is deposited in the Fleet Services Fund. For the sale of vehicles not originally purchased in the Fleet Services Fund, the vehicle auction income is deposited in account number 364300 in the respective fund where the vehicle was originally purchased.

In FY 13/14, the City started utilizing the services of Property Room/Copart to auction vehicles.

REVENUE TRENDS - The amount of revenue realized is based on the number of Building Permit applications received. Because the number of permits issued may vary, revenues may also vary from year to year.

OTHER PERTINENT DATA – Effective with the FY 18/19 budget, the Permits and Inspections Fund was established which is a new Special Revenue Fund-Fund 170. In prior fiscal years, Permits and Inspections was the Building Inspections Division (org 5040) under the Development Services Department in the General Fund.

Projected Revenue: Revenue projections begin with a five-year trend analysis of past actual revenues collected. In addition, major revenue sources from upcoming projects are identified and used to support the revenue projections for the fiscal year.

Requested Revenue: This revenue is estimated and procured through fees collected by issuing permits for all developments including new structures, alterations, additions, renovations, demolitions and remodeling. In an effort to maintain an acceptable level-of-service, large-scale developments will be engaging Private Providers in-lieu of City staff to provide plan review and/or inspections. According to § 553.791, the City must reduce permit fees based on the cost savings to the Building Division. The City must audit the Private Providers incurring administrative costs. Therefore, the rebate will be dispensed at Certificate of Occupancy issuance which may occur in future fiscal years. The anticipated fiscal impact is approximately a 25% decrease in revenues.

BASE PERMIT FEES:

2013-109

Base permits fees (building, electrical, mechanical, roofing, gas and plumbing) for new construction, alterations, demolitions, additions and repairs shall be as indicated below base on the estimated in-place cost of construction. Estimated in-place cost of construction shall include all systems. The estimated in-place cost of construction may be a figure provided by the permit holder or an estimated figure using the latest edition of the *Building Construction Cost Data, Division 17: Square Foot Cost* (using median unit cost and City Cost Index), published by R. S. Means, whichever is greater. A copy of the signed executed contract may be required by the Building Official at the time a building permit application is submitted to correspond with the valuation indicated on the application. Whenever there is any uncertainty as to the classification of a building, the Building Official shall determine the classification.

ALL RESIDENTIAL TRADE PERMITS (BUILDING, ELECTRICAL, PLUMBING, MECHANICAL, ROOFING, and GAS) assessed separately per trade:

Minimum permit fee (For all work valued up to \$1,000 total cost) **\$60.00** 2009-24

Additional work to be charged as follows, on a cumulative basis,
plus Minimum Fee:

(1) Work valued from \$1,000 to \$10,000	1.0%
(2) Work valued from \$10,001 to \$1,000,000	2.0%
(3) Work valued from \$1,000,001 to \$2,000,000	1.5%
(4) Work valued in excess of \$2,000,000	1.0%

ALL COMMERCIAL TRADE PERMITS (BUILDING, ELECTRICAL, PLUMBING, MECHANICAL, ROOFING, and GAS) assessed separately per trade:

RESIDENTIAL TEMPORARY TENT PERMIT FEE:

\$25.00 2016-138

No additional plan review fee or processing fee

SUBMITTAL FEE:

2013-109

A submittal fee is charged to all applications for additions, alterations, and new construction at **50%** of the base permit fee and shall be paid at the time of permit application submittal. The submittal fee is non-refundable but will be credited towards the base permit fee upon issuance of the permit.

ANNUAL PREMISE PERMIT:

2011-23

An annual premise permit only covers regular maintenance of existing facilities. The use of Florida licensed contractors for each trade (structural, plumbing, electrical, mechanical) is a requirement. A letter from the owner/association identifying contractors that will be employed to perform the work shall be submitted with the application in addition to a copy of the contractor's license, workers compensation and general liability insurance. A log of maintenance and repairs identifying areas and/or scope of work being performed shall be kept on site for City review and inspections. Condominiums, Co-Ops and other similar facilities are limited to performing regular maintenance in the common areas only. This permit is subject to cancellation by the Building Official upon determining the scope of work allowed under regular maintenance has been exceeded.

In prior fiscal years, Permits and Inspections was the Building Inspections Division (org 5040) under the Development Services Department in the General Fund.

A surcharge is to be assessed by the State of Florida at the rate of 3.0 percent of the permit fees associated with the enforcement of the Florida Building Code. This is defined specifically by the uniform account code for building permits adopted for local governmental financial reporting pursuant to s. 218.32. The minimum amount collected on any permit issued shall be \$2.00. The City will collect both the permit fee and the surcharge. The City will retain 10 percent of the surcharge collected on behalf of the State of Florida.

The amount of revenue realized is based on the number of building permits collected in the fiscal year. Because the number of permits vary from year to year, revenues will also vary from year to year.

REQUEST – FY 18/19

FY 18/19 projections are based upon the three-year average; however, staff also takes recent trends into account (prior year and current activity). Redevelopment Area Modifications (RAM) are typical with development applications that wish to seek waivers to the Zoning and Land Development Code. As such, Administrative Variances are expected to remain constant; and, therefore provide an anticipated level of revenue in keeping with past trends. Alcoholic Beverage License, Conditional Use, and Rezoning Applications show a decrease. However, staff recommends using the 3-year average to project revenues for FY 18/19. There has been a total of 9 Alcoholic Beverage License Applications year-to-date FY 17/18.

\$87,550**TOTAL PROJECTION****\$116,650****REQUEST – FY 18/19**

FY 18/19 projections are based upon application trends for the past three years (see table below) and anticipated incoming applications. Given recent trends, staff anticipates receipt of at least eight Major Development applications within the City limits. Typically, each Major Development will undergo DRC review at least twice. On occasion, three DRC meetings may be necessary. As such, the projections for FY 18/19 include anticipated fees collected for eight Major Development applications and corresponding DRC meetings. In addition, through process improvements, the City is now able to offer expedited DRC review for applicants that have surpassed at least one full DRC session. Staff expects every major development applicant to take advantage of this process.

Some Major Development application submittals require a Development Agreement application, as well. Therefore, staff anticipates collecting the Development Agreement application fee in relation to the aforementioned eight applications. On occasion, projects require a change to the plat note to accommodate redevelopment. Therefore, given past trends, staff anticipates at least six plat-related applications for major and minor development.

As infill and redevelopment efforts gain momentum, staff anticipates receipt of approximately 20 Minor Development applications (residential and commercial combined), in keeping with the three-year average and current trends. This includes several residential lots that may be redeveloped through the CRA and also through private development.

Section 2 – Description

Address Assignment, Research, and Zoning Verification requests are received, reviewed and prepared by Planning and Zoning personnel. Such requests can involve extensive research and staff time for accurate and timely completion. Fees for such requests compensate the City for the Planning and Zoning staff time to review submittals, complete historical research, and conduct field inspections as necessary.

Section 2 – Description

The construction process is typically initiated with development approval, which is required prior to an application for a Building (construction) Permit. Most development is regulated under three different codes: the Zoning Code, Fire Code, and the Building Code. For most projects, zoning clearance is required as part of the review of an application for a Building Permit; in other instances, a separate Zoning Permit is required prior to application for a Building Permit.

Planning and Zoning staff reviews building permit plans for compliance with the zoning and land development codes, conditions of approval, and development agreement provisions. This includes new construction, additions, fences, sheds, signs, renovations, outdoor seating requests, tree removal and replacement permits and many other improvements. The fees charged for plan reviews help recover the cost of staff time when processing permits that require the Planning and Zoning Division’s review, subsequent re-review of documents, and related inspections.

Certificate of Completion, Certificate of Occupancy, and Temporary Certificate of Occupancy inspections and public improvement inspections are also completed by Planning and Zoning personnel.

On January 27, 2016, the City Commission adopted Resolution 2016-13 decreasing the temporary sign/banner fee administered for not for-profit corporations. This adopted change is reflected in the fee schedule below.

REQUEST – FY 18/19

FY 18/19 projections are based on three-year average trends (shown in table below). Based upon approval expirations, staff anticipates receipt of zoning permit applications for at least four Major Development projects; therefore, the zoning permit application fees for these projects along with plan processing and inspection fees are reflected in the FY 18/19 projection. The final certificate of occupancy inspection for Beacon Office Building and certificates of completion and temporary certificate of occupancy for Hallandale Art Square are also anticipated and reflected below. Minor Development Applications, and Outdoor Dining Requests are expected to maintain at average levels.

General Building Permit applications requiring technical zoning review averages approximately 1,000 per year. Occasionally, building permit applicants allow their applications to remain dormant although the Zoning review has been conducted. In essence, this results in inefficient use of personnel resources and non-payment for services rendered. Projected revenues for the application fees (shown below) are based upon an assumption that the Planning and Zoning Division will collect a 50% deposit for construction application fees at the time of application submittal, and \$25 deposit for all general permits (fence, driveway, pool, etc.) requested. Deposits are non-refundable; however, such payment will be credited toward the final zoning fees if the permit is retrieved by the applicant before the building application expires.

Section 1 - Account Information

Fund: General Fund-001
Dept. No.: 5020

Sub-Type: **Concurrency Evaluations**
Type: **Concurrency/Zoning Fees**
Account: 5020.341206

Section 2 – Description

Revenues are from Variance, Conditional Use, Rezoning, Land Use Plan Amendments, Redevelopment Area Modification and miscellaneous zoning applications processed by the Planning and Zoning Division.

Section 3 – Other Data

*******NO CHANGE*******

REVENUE TRENDS – The amount of revenue realized is based upon the number of development applications received.

NEW ACCOUNT - In FY 15/16, Munis and Energov established the option of separately tracking concurrency fees, and a new account was provided for this purpose. In previous years, the concurrency evaluation fees were combined in account 5020-341202 with major and minor development fees.

Dept. No.:	5020	Type:	Zoning/Occupational Registration Fees
		Account:	5020.329130

Section 2 – Description

The hotel registration process and related fees became effective upon the adoption of Ordinance 2016-09 and Resolution 2016-50 to accomplish the following goals: (1) ensure regulations are consistent with state laws; (2) maximize efficiency of application review for such facilities; and, (3) provide assurance that hotels/motels, and condo-hotels operate (hotels) as approved. To remedy this situation, staff is recommending changes to the definition of *hotel* to allow monitoring of records pertaining to the rentals of each room in the condo-hotel or hotel/motel facility. Such monitoring of the official books and records would ensure that the condo-hotel or hotel/motel facility complies with regulations as stipulated in development agreements or the code of ordinances.

Section 2 – Description

Many local jurisdictions in the State of Florida and across the nation have standards in place to minimize the negative impacts caused by short-term vacation rentals. Ordinance 2016-02 and Fee Resolution 2016-32 were approved and adopted by the City Commission on February 17, 2016, UPDATE: Vacation Rental Ordinance # 2018-003 was passed and adopted on February 21, 2018, to include all areas of the city. All of these revisions ensure that short-term vacation rentals meet all state and local health, safety, and building codes, obtain proper licensing and permits, protect the character and integrity of the existing neighborhood, deter negative impacts on the community, protect property values, and maintain neighborhood compatibility. The application of these minimum standards to short-term vacation rental properties would ensure that transient occupants are provided the same minimum protections as required by the current statutes and codes for other transient uses.

The Code Compliance Division has implemented a mitigation policy/procedure to expedite the payment of fines. The goal is to streamline the process and to allow property owners to be able to pay a reduced amount. Property owners, who are bringing their property into compliance, are allowed to pay 10% of the mitigated fine, once the violation has been corrected. This percentage will be increased to 15% (non-homestead properties). Updated Administrative Policy forthcoming. This ensures revenue to supplement the cost associated with the Special Magistrate process. Approximately sixty (60) lien mitigation cases are processed per year.

*******FEE INCREASES*******

REVENUE TRENDS – Historically, this revenue stream has been steady and predictable.

For FY 18/19, staff performed an analysis of the apportionment of calls related to life and property protection. This analysis was last done in preparation of the FY 15/16 budget. Property types are assigned based on their designation by the Property Appraiser and the fee was apportioned according to the total time and number of vehicle responses to that property type in comparison to the other property types. Based on this information, the residential rate increased from \$198 to \$251.11. Other property types increased as well based on the proportional number of fire calls dispatched to each type of property. This rate will recover 90% of assessable costs of fire protection.

Staff is assuming a 97% collection rate for FY 18/19.

(1) QUALIFICATIONS FOR SUPPLEMENTAL COMPENSATION

(a). In addition to the compensation now paid by a fire service provider to any firefighter, every firefighter ***shall*** be paid supplemental compensation by the fire service provider when such firefighter is a full-time employee, as determined by the employing fire service provider, and has complied with one of the following criteria:

1. A firefighter who receives an Associate Degree from an accredited college, which degree is directly applicable to fire department duties, as outlined in policy guidelines adopted by the rule by the division, shall be additionally compensated as outlined in paragraph (2)(a).
2. A firefighter, regardless of whether or not she or he earned an associate degree earlier, who receives from an accredited college or university a bachelor's degree, which bachelor's degree is directly applicable to fire department duties, as outlined in policy guidelines adopted by rule by the division, shall receive compensation as outlined in paragraph (2)(b).

(2) SUPPLEMENTAL COMPENSATION – Supplemental compensation shall be determined as follows:

- (a) Fifty dollars shall be paid monthly to each firefighter who qualifies under subparagraph (1) (a) 1.
- (b) One hundred and ten dollars shall be paid monthly to each firefighter who qualifies under subparagraph (1) (a) 2.

Any changes to this revenue sheet are reflective of personnel either becoming eligible or ineligible for supplementation. The dollar amount paid is determined by the state and has remained constant for over ten years.

Section 2 – Description

Section 3 – Other Data

*******FEE INCREASES*******

OTHER PERTINENT DATA -The fee schedule recognizes multiple service levels. BLS Transports, ALS-1 Transports, & ALS-2 Transports. There have been no fee increases since FY 11/12. For FY 18/19, the Transport Fee will increase from \$750 to \$850 for all medical transports.

Revenues reported below are actual revenue collected (cash basis) by the Fire Rescue Department’s EMS transport collection agency, AMB-Mars Medical Billing. They collect payments from all payers - private insurers, Medicare, Medicaid, and self-pay patients. AMB-MARS began servicing the City in August 2017, taking over from Advanced Data Processing, Inc. (ADPI).

Over the past three years, the Fire Rescue Department has transported an average of 4,400 patients per year to local emergency departments. As of April 1, 2018, the Fire Rescue Department has transported 2,126 patients which is slightly less than previous years. The Fire Rescue Department projects they will transport approximately 4,200 in FY 18/19 with revenues reflecting this.

The City established a “Resident Policy” in FY 11/12 which relieves Hallandale Beach citizens of their balance of the transport charge after the insurance company has made payment. Residents who do not have insurance coverage are not charged. Approximately \$16,000 in revenue is written off due to the resident policy.

The Federal Centers for Medicare and Medicaid Services (CMS) has a Public Emergency Medical Transport (P-EMT) Supplemental Reimbursement Program that provides additional funding for the transport of Medicaid patients based on a formula certified by CMS. This funding is administered by the State of Florida. This funding was approved by the state in 2016. Since the State of Florida’s fiscal year begins July 1 and the City’s fiscal year begins on October 1, only ¾ of City’s FY 16/17 was eligible for this funding source. FY 17/18 was the first year that the full fiscal year was eligible for reimbursement. \$87,876 was received for the current fiscal year. The same amount is projected for FY 18/19.

Medicare reimbursement schedule has remained the same since FY 13/14. The rates are as follows:

- Basic Life Support Transports: \$ 369.30
- Advanced Life Support 1 Transports: \$ 438.54
- Advanced Life Support 2 Transports: \$ 634.73
- Per Mile: \$ 7.27

\$1,200,000

There was an initial issue obtaining patient billing information from Aventura Medical Center from August 2017 until February 2018, which has since been rectified. Lower than expected year-to-date revenues are expected to recover by the end of the fiscal year.

REQUEST – FY 18/19

\$1,200,000

Calculation is based on collections data provided for by Ambulance Medical Billing (AMB) after un-collectibles have been accounted for. While call volume has increased, there has been a slight decrease in medical transports, leading to an \$80,000 decrease in revenue projections. P-EMT Medicaid reimbursement of \$87,500 is included in the request, which is the same as FY 17/18.

If the resident policy is eliminated through ordinance, then an additional \$16,000 of revenue can be realized, which is not reflected in the \$1,200,000 for FY 18/19.

*******NEW FEE*******

Today, the Centers for Medicare and Medicaid Services (CMS) recognize ambulance service as a transportation benefit only. In general terms, the ambulance must transport the patient to a hospital emergency department (ED) to receive compensation from federal payers and most commercial insurance companies. Due to the unique nature of the service delivery model, EMS agencies provide an increasing number of responses where no reimbursement is available. If the patient is not transported, the insurance company does not bill. Costs were still incurred to be ready to respond.

Many agencies charge *first responder* and/or *Treat and No Transport Fees*, and in addition bill an additional surcharge to non-residents, all of which are billable items. It should be noted that private insurance companies pay for such fees and that Medicare currently does not reimburse for First Responder fees and only for certain Treatment and No Transport fees.

Locally, the City of Hollywood charges \$160 for residents and \$200 for non-residents for this service.

Section 4a – Calculation-Projections

PROJECTION – FY 17/18 \$30,000

Projections are based upon the actual number of commercial occupancies storing/utilizing hazardous materials and an estimation of requests for fireworks permits. A detailed report of all current commercial hazardous materials permits, past fireworks sales permits, and past fireworks display show permits was compiled and totaled for potential revenue projection accuracy. Overall this category fluctuates based on addition/reduction in hazardous materials maintained on site, fireworks’ seasonal sales, and professional events.

REQUEST – FY 18/19 \$25,000

The revenue request calculations are based on the detailed hazmat report taking into account the two areas that generate the revenue. The calculations are based on the current list of commercial occupancies storing/utilizing hazardous materials and prior firework sale and show permits.

Section 5 – History/Fee Booklet

Fees were increased 5% in FY 15/16.

Section 4a – Calculation-Projections

PROJECTION - FY 17/18

\$60,000

Projections are based upon current and anticipated construction permit receipts for FY 17/18. Development Services annually provides the updated Projected Summary Report which anticipates new construction projects. Prevention staff reviewed the summary report in detail and based our projection on project cost/review fees over the last three years. In addition to major projects, the minor alteration submissions maintain a steady average throughout the fiscal year. Based on these two factors, staff estimates that revenues will total \$60,000 by the end of the budget year.

REQUEST - FY 18/19

The requested revenues are based on the projected summary provided by Development Services and historical unanticipated submissions. The Summary Report furnished by Development Services anticipates eleven (11) possible construction projects totaling \$75,000 in Fire Permit Review Fees. Also included in the requested total and based on past year historical data are unanticipated submissions, which if remaining consistent with the previous fiscal year, could generate \$5,000 in Fire Permit Review Fees providing for a FY 18/19 revenue request total of \$80,000.

Based upon adjusted Development Services projections	\$75,000
Based upon historical unanticipated submissions	<u>5,000</u>
TOTAL REQUEST	<u>\$80,000</u>

Section 5 – History/Fee Booklet

The attached excerpt from the Fee Booklet is pulled from the Building and Housing Inspection Fee Schedule.

The Fire Permit Fee portion of the Building and Housing Schedule changes made in FY 12/13 were to standardize the calculation of permit fees. We have since found this to be ineffective due to incomplete applications submitted by contractors. Returning to our original fee schedule will enable Fire Plan Reviewers to calculate the appropriate fee at time of review rather than potentially missing the charge altogether. Architectural plan review fees would be increased to \$0.15/square foot as this fee has not increased in over ten years. Minor alterations would be charged at the minimum hourly rate (or portion thereof) of \$100.00 per discipline. Additionally, a “per floor” testing fee is included in our modified schedule for life safety systems.

Fire Prevention Staff recommended the following changes to our Fire Permit Review Fees for FY 18/19.

BUILDING & HOUSING INSPECTION FEE SCHEDULE

FIRE PERMITS: (RESIDENTIAL) For Life Safety Systems Only

Minimum permit fee (For all work valued up to \$1,000 total cost)	\$60.00	2012-66

Section 3 – Other Data

*******NEW FEES/FEE INCREASES*******

Approximately 3,000 properties will require annual life safety inspections in addition to Business Tax Receipt (BTR) inspections, and/or associated life safety violation re-inspections in FY 18/19. Revenue is dependent upon occupied properties, resource availability to conduct inspections, thorough and prompt customer billing, and the capability and/or desire of the customer to pay the required charges.

*as of 04/17/18

Section 4a – Calculation-Projections

PROJECTION - FY 17/18

\$200,000

Projections are based on the current total number of completed life safety inspections, projected life safety inspections that will be required when developments are completed, and possible re-inspections of properties that did not pass their initial inspection. It is anticipated that life safety inspections will be performed on all commercial and multi-residential properties along with re-inspections as necessary based on violations.

An additional 150 projected business tax receipt life safety inspections prior to the end of FY 17/18 are included in the projection for this fiscal year.

REQUEST - FY 18/19

\$470,650

Request calculations are based on the current total number of properties requiring annual life safety inspections, occupational inspections, and possible life safety re-inspections at the new proposed rates. For FY 18/19, we are estimating 100% life safety inspections including projected life safety re-inspections and business tax receipt life safety inspections. Calculations also include an additional \$10,050 in revenue from the addition of AED monitoring to the required life safety inspection for applicable properties. This ordinance was adopted by the City Commission on January 31, 2018.

A more efficient revenue collection method is proposed for FY 18/19. Currently, the Fire Prevention Bureau is responsible for billing, invoicing, and some collecting of revenues. This process is being improved by including the inspection fee on the annual Business Tax Receipts issued by Development Services. This would streamline the billing process for the public and for Fire Prevention as the revenue would be collected with the Business Tax Receipt and no inspector staff time would need to be spent on billing and invoicing. Staff from Fire and Development Services are working together toward this end. Re-inspections would be billed separately, as conducted, at the new rates.

Section 5 – History/Fee Booklet

The fire inspection portion of the Fee Booklet was changed in FY 15/16 to allow for a 7% inspection fee increase and additional fee assistance in helping to correct hazardous activities and recurring violations.

For FY 18/19, increases in inspection fees are proposed to bring the fees closer to recovering the costs of providing these services.

Revenue from Children’s Services Council of Broward County for partial funding of the Afterschool Tutorial Enrichment Program (ASP).

Section 3 – Other Data

REVENUE TRENDS – The term of the program start-up agreement is for July 1, 2017, through September 30, 2017. The initial 12-month contract term is dated October 1, 2017, through September 30, 2018, funded from the Children’s Services Council of Broward County Maximizing-Out-of-School-Time RFP, with two (2) subsequent annual renewal options through September 30, 2020, contingent upon program performance and funding availability.

The ASP serves students ages 5 to 12, in grades Kindergarten through 8th, living in families with very low to low income, attending and/or residing in the attendance boundary of Gulfstream Academy of Hallandale Beach K-8 where 91% of the students qualify for Free and/or Reduced Lunch. The ASP also serves families categorized as Asset Limited Income Constrained Employed (ALICE) who depend on affordable and/or subsidized childcare in order to work. These families make more money than the official poverty level, but much less than what is needed to sustain a standard of living. The population in which the program services includes students from the following census tracts:

- Census Tract(s) Population Data:
 - 1002 – 62.30% of Low/Moderate Income
 - 1003 – 57.18% of Low/Moderate Income
 - 1004 – 80.78% of Low/Moderate Income

Fund:	General Fund-150	Sub-Type:	Local Service Provider - ADRC
Dept. No.:	6910	Type:	Human Services
		Account:	4884-337691-G1903

Section 2 – Description

The Human Services Department provides critically needed community-based services to persons aged 60 plus. The program housed at the Austin Hepburn Center, Human Services Department offers expanded day care services, caregiver support, in-home services, respite, recreational activities, transportation services and meals. This allows for elders to maintain an acceptable quality of life in their own homes, avoid and/or delay nursing home placement which is cost prohibitive. Revenue is received from the Department of Elder Affairs/Aging and Resource Disability (ADRC) for partial funding of the Hepburn Center Senior Mini Center. The funding stream is Local Service Provider (LSP) dollars, which is earmarked to provide community-based services to preserve elder independence, support caregivers and target at-risk seniors through the provision of meals, transportation services, and recreation, social and educational programs.

Section 3 – Other Data

REVENUE TRENDS – LSP funding at the Hepburn Center was cut by the Florida Senate Health and Human Services Appropriations Committee for FY 17/18. However, senior programming received \$98,604 in backfill (one-time) funding for the period July 1, 2017, through June 30, 2018, via dollars awarded to ADRC through the Older Americans Act (OAA) Title III B.

NOTE: OAA funds required a cash match of \$4,930 which brought the allocation up to \$98,604. The House and Senate Appropriations Committees released their spending proposals for FY 18/19. The Austin Hepburn Center allocated funds are in both the House and the Senate Approved Budgets. The term of the new contract will become effective July 1, 2018, through June 30, 2019, with level funding of approximately \$88,744.

Revenue is based on a proposed fine of \$500 per incident, from first time non-violent misdemeanor offenders agreeing to participate within the program.

Section 3 – Other Data

REVENUE TRENDS – Effective February 5, 2014, amended changes to the City of Hallandale Beach Municipal Code Ordinance No. 2014-05, Chapter 19, Sections 19-17, implementing the Adult Diversionary Program.

The purpose of diversion programs in general is to allow non-violent, usually first-time offenders an opportunity to resolve minor offenses (i.e. Theft, Trespassing, Criminal Mischief, etc.) outside the judicial process and to avoid the stigma of a criminal conviction. There are various diversion programs available at the county and state court levels but these programs require that the offender be formally arrested and processed through the criminal justice system before they reach the diversion stage of the process. Even though these offenders can avoid the stigma of a conviction if they successfully complete their diversion program, they still incur the stigma of an arrest and the beginning stages of prosecution, even if that prosecution is ultimately deferred.

A fine of five hundred (\$500) dollars will be payable to the City of Hallandale Beach from each first-time non-violent misdemeanor offender agreeing to participate within the Program.

Section 2 – Description

The School Resource Officer (SRO) Program dates back to 1987 when Hallandale Police Department assigned a full-time police officer to Hallandale High School. Since this time, the Police Department has continued to provide an SRO to Hallandale High School. Additionally, throughout the years the Police Department has assigned full-time police officers to other schools in the City. This revenue tracks the reimbursement from Broward County School Board for the School Resource Officer at Hallandale High School and various other schools per agreements. The agreement for FY 18/19 should be for four SRO’s to cover five schools for a total of \$185,008.

The Nuisance Abatement Program brings the Code Compliance function of the Development Services Department and the Police Department together in a partnership that combines the resources and outreach and enforcement capabilities of each Department to benefit the community in ways that each Department acting independently could not accomplish. The Ordinance will streamline and modernize an important tool for the Police Department and the City to address issues of crime and blight within the City. The Ordinance clearly delineates the types of activities (generally narcotics, prostitution, criminal street gang activity, and dealing in stolen property) that can be addressed through Nuisance Abatement.

Section 2 – Description

In 2012, the City of Hallandale Beach approved a development agreement, via Resolution # 2012-2 with PRH-2600 Hallandale Beach LLC. In conjunction with the developer agreement, the City and PRH Beachwalk Beachclub, LLC (the “Operator”) entered into an Operating and Management Agreement for a restaurant and public facilities at North Beach. As per the agreement, the City receives, as an Operating Fee, the greater of \$5,000 monthly or 2.5% of gross revenue (Minimum Operating Fee or Percentage Fee). The North Beach Operating and Maintenance Fee commenced August 17, 2015.

Section 3 – Other Data

*******DECREASE*******

The following events took place which explain the decrease in revenue for FY 17/18.

1. The previous restaurant sub-operator, SBERG Management LLC (SBE), provided the City with Percentage Fee payments on an irregular schedule. In accordance with the agreement, the Operator must provide the Percentage Fee annually at the end of the calendar year. The current restaurant sub-operator, Beach-Chu Hallandale LLC (Etaru), was approved on March 1, 2017 via Resolution #2017-29 and is providing the Operating Fee strictly in accordance with the agreement.
2. The transition in sub-operators caused a downturn in Operator’s revenue over a period of six (6) months.
3. Etaru was expected to open May/June 2017. However, Etaru did not open until mid-August 2017. A few weeks after opening, Hurricane Irma hit the region, minimizing revenues for Etaru in the first few months.

Section 2 – Description

The City entered into a contract with Tower Development Corporation for the monopole tower located at Bluesten Park on August 3, 2012.

The approval of the Lease Agreement with Tower Development Corporation will have the following impact on the City. Tower Development Corporation shall pay initial monthly rent in the amount of \$3,000. This rent includes AT&T as a subtenant on the monopole. The City will be able to place its communication equipment on the tower at no additional cost. Lessee shall pay the City for additional tenants. The term of the lease agreement is effective through 2037.

Pursuant to Section 5.5 of the agreement, rent increased by 15% on the 5th anniversary of the commencement date, December 2017.

Section 2 – Description

As per Section 20-18. Surplus Property, the City Manager is authorized to declare City-owned property which is no longer needed for a public use with an estimated value of \$20,000 or less to be surplus property. Revenue varies dependent upon the amount of surplus items to be sold. Auctions are conducted electronically. Interested parties register with the auctioneer (PropertyRoom.Com) to become a bidder and place bids for the City’s surplus items on-line.

Section 3 – Other Data

*******DECREASE*******

REVENUE TRENDS - Revenue fluctuates with the number and type of items available for auction. All non-vehicle auction revenue is deposited in this account and gets reclassified to revenue accounts in other funds based on type of item auctioned, i.e., confiscated property, etc. and to the fund where the item was originally purchased.

OTHER PERTINENT DATA - For FY 12/13, the City Commission approved the establishment of the Fleet Services Fund. Beginning with FY 13/14, the revenue for the auction of vehicles is now being recorded in the Fleet Services Fund. The auction revenue from other auctioned items such as used furniture, computer equipment, exercise equipment, etc. will remain in this account.

In FY 17/18, the Ansin Vehicle Storage Lot was sold for \$2,944,531 on July 19, 2018.

Section 2 – Description

In December 2010, the City entered into an agreement with Martin Gold-Coast, LLC for the installation and maintenance of all street furniture to include bus benches and bus shelters. The new street furniture agreement terminated the Perpetual Bus Bench Agreement between the Chamber of Commerce (Chamber) and the City. The Procurement Department began contract management for this agreement in November 2016. Effective with the FY 16/17 budget, this revenue is now recorded in the Transportation Fund. In prior years, the revenue was recorded in the General Fund.
