Hallandale Beach Banking Consortium

Access to capital continues to be a major problem for small business start-ups and expansions. Many small businesses access equity capital from family, friends, venture or private equity capital or by using credit cards which can be a very expensive option.

The Hallandale Beach Lending Consortium was formed to explore creative ways for local Hallandale Beach based banks to not only meeting their Federal Community Reinvestment Act (FCRA) obligations in Hallandale Beach, but to streamline the lending process for local businesses.

The banks that are currently a part of the Banking Consortium include:
1. City National Bank
2. Florida Community Bank
3. Wells Fargo

Small Business Administration | SBA Disaster Assistance

- The U.S. Small Business Administration is offering designated states and territories low-interest federal disaster loans for working capital to small businesses suffering substantial economic injury as a result of the Coronavirus (COVID-19). Upon a request received from a state’s or territory’s Governor, SBA will issue under its own authority, as provided by the Coronavirus Preparedness and Response Supplemental Appropriations Act that was recently signed by the President, an Economic Injury Disaster Loan declaration.

- Any such Economic Injury Disaster Loan assistance declaration issued by the SBA makes loans available to small businesses and private, non-profit organizations in designated areas of a state or territory to help alleviate economic injury caused by the Coronavirus (COVID-19).

- SBA’s Office of Disaster Assistance will coordinate with the state’s or territory’s Governor to submit the request for Economic Injury Disaster Loan assistance.

- Once a declaration is made for designated areas within a state, the information on the application process for Economic Injury Disaster Loan assistance will be made available to all affected communities as well as updated on our website: SBA.gov/disaster.

- SBA’s Economic Injury Disaster Loans offer up to $2 million in assistance per small business and can provide vital economic support to small businesses to help overcome the temporary loss of revenue they are experiencing.
